

# MOTIVIAN

## Document Management

Provisioning, Implementation and Installation of workflow and document management system

April 2015

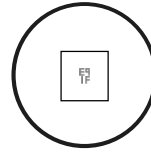

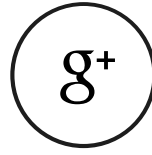

The scope of the project is the provisioning, implementation and installation of a workflow and document management system, providing automation, registration (protocol), workflow and monitoring of business processes, operational documents, improving the entire Electronic Governance Mechanism of the organization, minimizing the total completion time of each process and organizations' operational bottom line cost.

### Benefits:

- Completeness and standardization of e-services offered
- Reduced bureaucracy and paperwork
- Reduced employee workload
- Reduced operational cost
